Section VII: Demonstration	on of Physical Ability - To	o be com	pleted by the Medical Practitioner		
 The Medical Practitioner shall require that the applicant demonstrate the ability to meet the guidelines contained within Section VII of the CG-719K instructions. This does not mean, for example, that the applicant must actually don an exposure suit, pull an unchanged 1.5 inch diameter 50' fire hose with nozzle to full extension, or lift a charged 1.5 inch diameter fire hose to firefighting position. Rather, the Medical Practitioner may utilize alternative measures to satisfy himself or herself that the applicant possesses the ability to meet the guidelines in the third column. A description of the methods utilized by the medical practitioner should be reported in the Comments section provided below. All practical demonstrations should be performed by the applicant without assistance. Any prosthesis normally worn by the applicant, and any other aid devices, may be used by the applicant in all practical demonstrations except when the use of such items would prevent the proper wearing of mandated personal protection equipment (PPE). If the Medical Practitioner is unable to conduct the practical demonstration, the applicant should be referred to a competent evaluator of physical ability. The Coast Guard recognizes that all medical practitioners may not have the equipment necessary to test all of the tasks as listed. Equivalent alternate testing methodologies may be used. For further information, check the Medical and Physical Evaluation Guidelines for Merchant Mariner Credentials (http://www.uscg.mil/nmc/medical/default.asp). If the applicant is unable to perform any of the following functions, the Medical Practitioner should be recorded in the Comments section provide demonstration or attendant physical evaluation should be recorded in the Comments section provided below.
